

**APPLICATION FOR THE REGISTRATION OF A DELPHINIUM CULTIVAR NAME**

This form, duly completed including the Personal Data Statement on Page 3, should be sent to **Melanie Underwood, International Delphinium Registrar, The Royal Horticultural Society’s Garden, Wisley, Woking, Surrey, GU23 6QB, UK**. Names already listed in the latest edition of *The International Delphinium Register* or in subsequent Supplements may not be re-used legitimately and are not acceptable for registration. Names proposed should be acceptable under the rules and recommendations laid down in the 9<sup>th</sup> edition of the *International Code of Nomenclature for Cultivated Plants* (published 2016). Details of these publications and guidance on names and registration may be obtained from the above address, or by email (**delphinium@rhs.org.uk**). There is no fee for the registration of a new cultivar name.

### What we do with your personal data (Personal Data Statement)

As defined by the UK Data Protection Act (1998), in completing and sending this form as an individual you are supplying the Royal Horticultural Society as International Cultivar Registration Authority (ICRA), which is a voluntary non-statutory organisation, with information that identifies you ("personal data"). This does not apply to registrations submitted in the name of an organisation, such as a commercial nursery.

To register your plant requires the ICRA to retain these personal data and in submitting this registration form you are agreeing to the storage of the data that relates to you. This information will be kept indefinitely and for the purpose detailed below. The ICRA undertakes to hold your personal data securely and not to make it available to anyone else during your lifetime, except where required for the purpose of cultivar registration.

Completion of the registration process requires the ICRA to publish information about newly registered plant names in print. The RHS ICRA's do this by means of a Register, or its supplements (usually produced annually) which are printed and distributed, as well as being made available online on the RHS website. These publications contain either just the name or the name and an abbreviated address of the registrant. When known, the abbreviated address will consist of just the home town, county/state and country.

Occasionally we share data on registered plant names with others involved with cultivar registration, including those outside the European Union. Should this occur we will try to ensure there is an adequate level of protection in such countries in relation to processing personal data.

**Under the UK Data Protection Act you have the choice to opt out of your personal data being used by the ICRA. Please read the statements below and indicate your preference in each case.**

I give permission for the RHS to (\* Please delete as appropriate):

- Include my name in published outputs from the Register database, and make it available through the RHS (YES/NO\*)
- Include my abbreviated address (as home town, county/state, country) in published outputs from the Register database, and make it available through the RHS website (YES/NO\*)
- Share relevant personal data relating to this application with other organisations involved with cultivar registration (including those outside of the EU) (YES/NO\*)

In addition this form may contain personal data about other people involved in the origin and development of the plant. Where possible, you should have obtained their permission to include their personal data if they are still living at the time of this application and these data are not already in the public domain.

Please indicate below whether you have obtained these people's agreement for you to supply their personal data:

I confirm that the following individuals have agreed to me providing their details as listed in this registration application, as indicated below (\* Please delete either element if appropriate)
