

## Exploring the World in Comfort

Viking, the world's leading exploration company, is delighted to sponsor Christina Cobb's Restorative Balcony Garden, which provides inspiration for gardeners with limited space. As a long-standing supporter of the RHS, this will be the ninth year that Viking has featured at the RHS Chelsea Flower Show – and its second consecutive year of sponsoring a balcony garden. Viking is proud to offer the most awarded river journeys in the world, as well as the most exciting ocean voyages aboard stunning, Scandinavian-inspired ships. With the launch of our new expedition ships, you can now explore all seven continents in Viking comfort.

## The Restorative Balcony Garden

sponsored by Viking

Garden design by Christina Cobb

**The Restorative Balcony Garden** sponsored by Viking mixes reclaimed items and carefully selected new materials to demonstrate that it is possible to create a space which is environmentally conscious without compromising on aesthetics or quality. The garden's aim is to encourage people to maximise their own outside space, and to see that a small footprint is not synonymous with a restricted design.
